The 2018 International Conference on Biosphere Reserve:  
Engaging Stakeholders towards Community Empowerment

Palembang – Indonesia, 23 July 2018

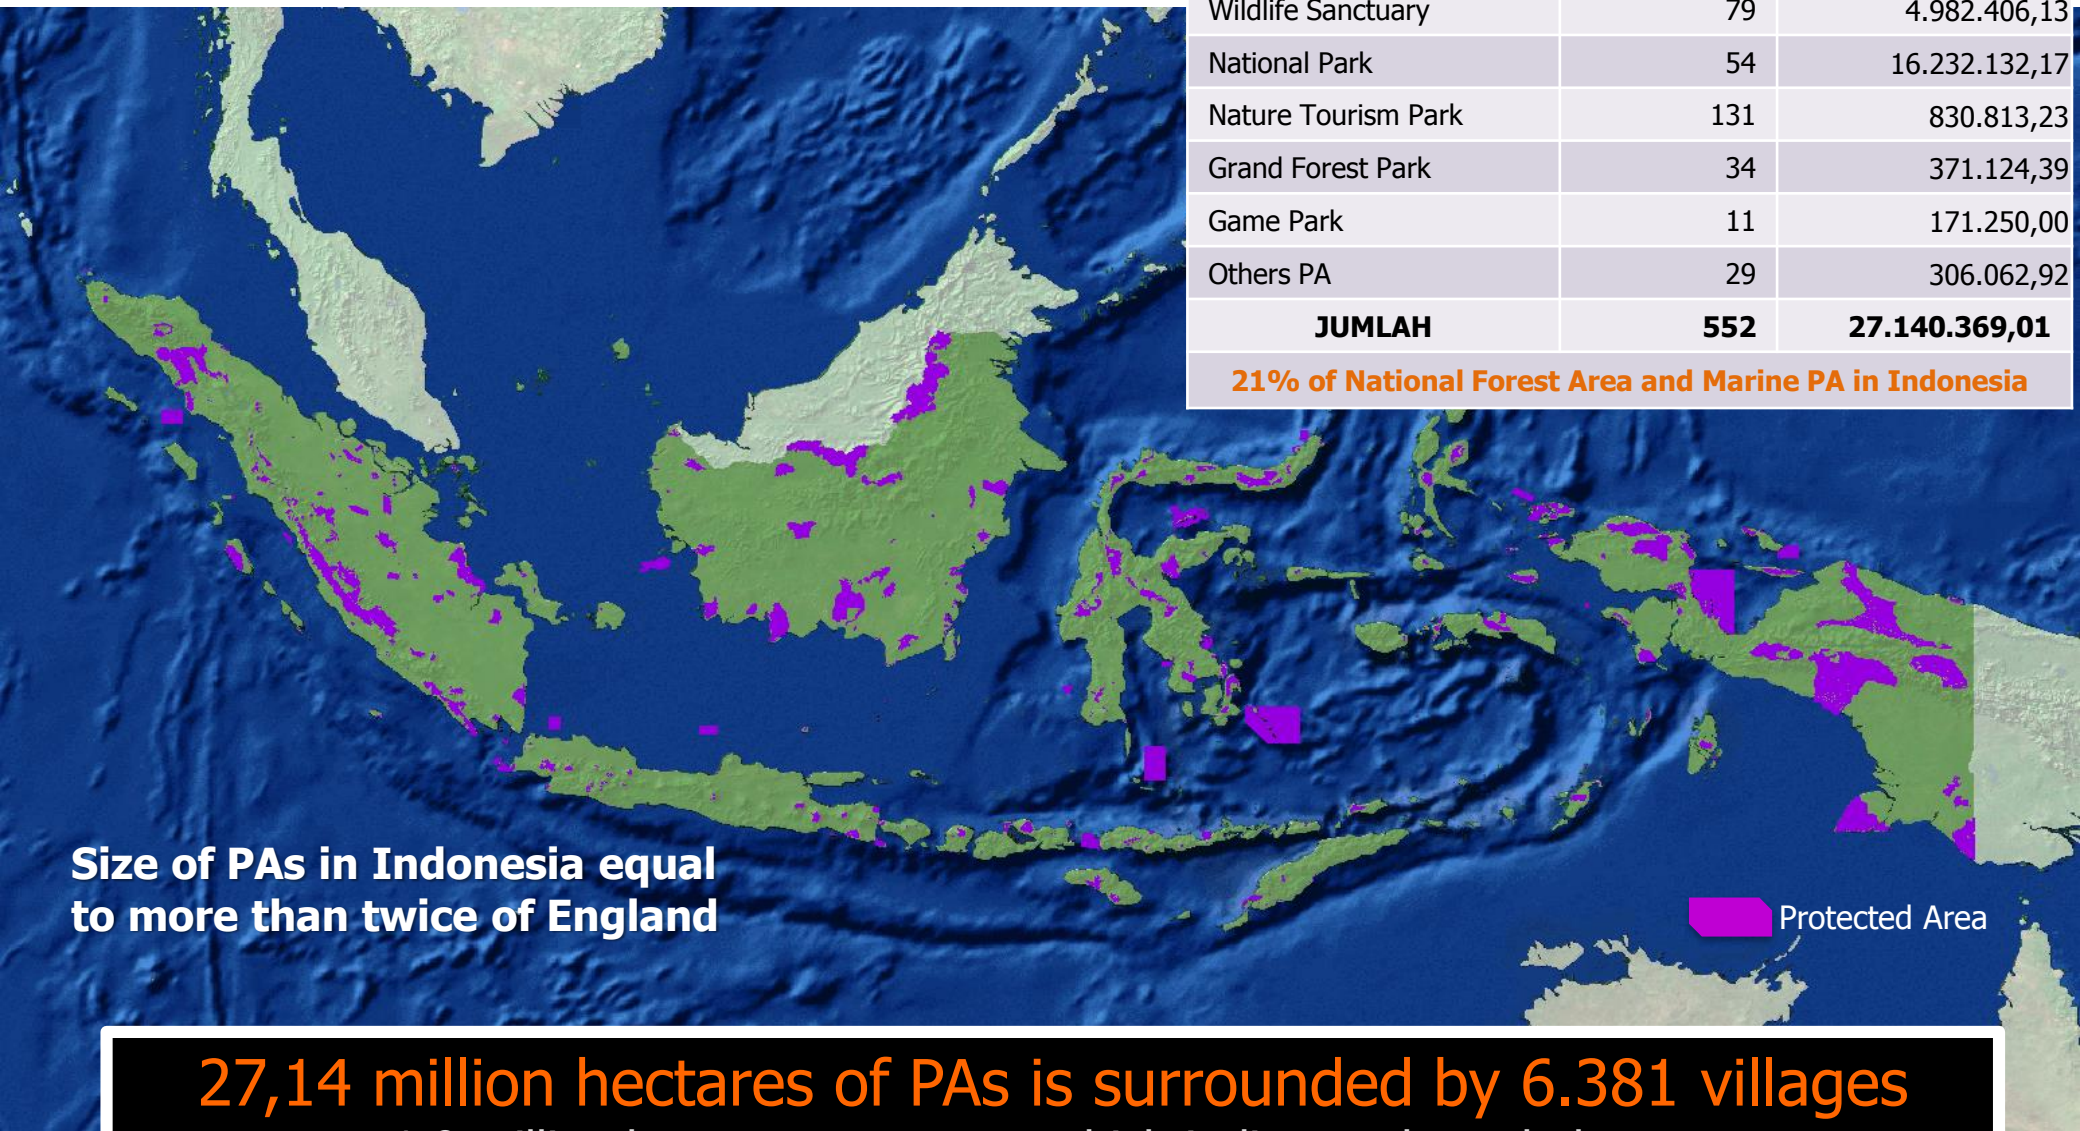

*“Forestry is not about trees, it is about people.  
And it is about trees only in so far as trees  
can serve the needs of people”.*

*(Jack Westoby, 1967)*

# INDONESIA'S PROTECTED AREAS

Categories	Number of PAs (Unit)	Area (Ha)
Strict Nature Reserve	214	4.246.580,18
Wildlife Sanctuary	79	4.982.406,13
National Park	54	16.232.132,17
Nature Tourism Park	131	830.813,23
Grand Forest Park	34	371.124,39
Game Park	11	171.250,00
Others PA	29	306.062,92
<b>JUMLAH</b>	<b>552</b>	<b>27.140.369,01</b>
<b>21% of National Forest Area and Marine PA in Indonesia</b>		

Size of PAs in Indonesia equal to more than twice of England

**27,14 million hectares of PAs is surrounded by 6.381 villages**  
1,9 million hectares open area which indicates degraded areas  
1,65 million hectares indigenous territorial claims

# International Recognition of Indonesia's Protected Areas

BR G Leuser

BR Giam Siak Kecil

Geopark

# Objectives of Conservation in Indonesia

Maintenance of essential ecological processes and life-support systems

Preservation of genetic diversity

Sustainable utilization of species and ecosystems

# Man and Biosphere

- (1995) **Seville Strategy** (recommendation of activities to develop Biosphere Reserve until 21<sup>st</sup> century)
- (2008) **Madrid Action Plan and Madrid Declaration** (cooperation, management and communication; zoning and linking through type of zones; scientific based and improve human resources capabilities; partnership)
- (2015) **Lima Action Plan** (implementing MAB new strategy 2015-2025 → sustaining biodiversity, ecosystem balancing, mankind health, economic values for communities)
- (2010) **Aichi Biodiversity Targets** (Strategic Plan for Biodiversity 2011-2020) and Indonesian Biodiversity Action Plan (**IBSAP**) 2015-2020
- (2015) **SDGs** (a universal call to action to end poverty, protect the planet & ensure that all people enjoy peace & prosperity)

# Managing Protected Areas

Lesson Learnt from very long experiences

Build a common agenda

Build hope and public trust

Consistency and Adaptive Management Approach

Network and partnership as social capital

Findings protected areas management identity

Good Governance  
(transparency, participative, collectivity responsibility, accountability)

# ***“New Direction”***

Communities as Subject

Learning  
Organization

Respect for  
Human Rights

Cooperation  
between  
Echelon I

Cooperation  
between  
Ministries

Respect for Cultural  
Values and Customs

Multilevel Leadership

Scientific Based  
Decision Making

Field Level/  
Resort Based  
Management

Appreciation  
and  
Mentoring

## **Managing Protected Areas**

# Resources as Capital

## Natural Capital

552 unit PAs for environmental services, ecotourism, bio prospecting, NTFP, etc.

## Human Capital

7.803 Civil Servant and PAs Ranger

## Financial Capital

Government Budget, Trust Fund, CSO, NGO

## Social Capital

Networking, partnership, trust building, stability, supporting

# *Social Capital*

An effort to manage, to improve, and to leverage social relationship as a resources invested for various benefits (reciprocal relationship)

(Sunyoto Usman, 2018. "Modal Sosial". Pustaka Pelajar)

# Benefits and Importance of Social Capital

## *Social Capital*

### Data and Information

Support data and Information from key stakeholders  
(check, recheck, cross-check)

### Trust Building

improve cooperation for multi-stakeholder through collaboration to achieve better management effectiveness

### Stability

Respectful relationship will create conducive condition

### Supporting

Relationship correlate to influencing or mobilize support

*Community engagement for achievement of Aichi Biodiversity Targets and SDGs*

*The principle of mutual trust, mutual respect, and mutual benefits*

# New Regulation in Conservation Partnership in Indonesia

## Access to :

non-timber forest products

traditional cultivation

traditional hunting for unprotected wildlife

traditional harvesting for marine products

(eco) tourism

## Cooperation :

Collaboration of tourism operator and communities

# Kalibiru Community based (eco) tourism

A community forest side by side with Sermo Protected Area in Yogyakarta

# Forest recovery

2002

2017

# Tebing Siring community forest, South Kalimantan

# Tangkahan: “from illegal logging to ecolodging...”

# *“Ahimsa”* for forest dependence communities
